CONVENTA BEST EVENT AWARD 2023

The annual award for the best event in New Europe

28 - 29 August 2023 | Ljubljana, Slovenia

www.crossover.si/best-event-award

1. THE FOUNDATION

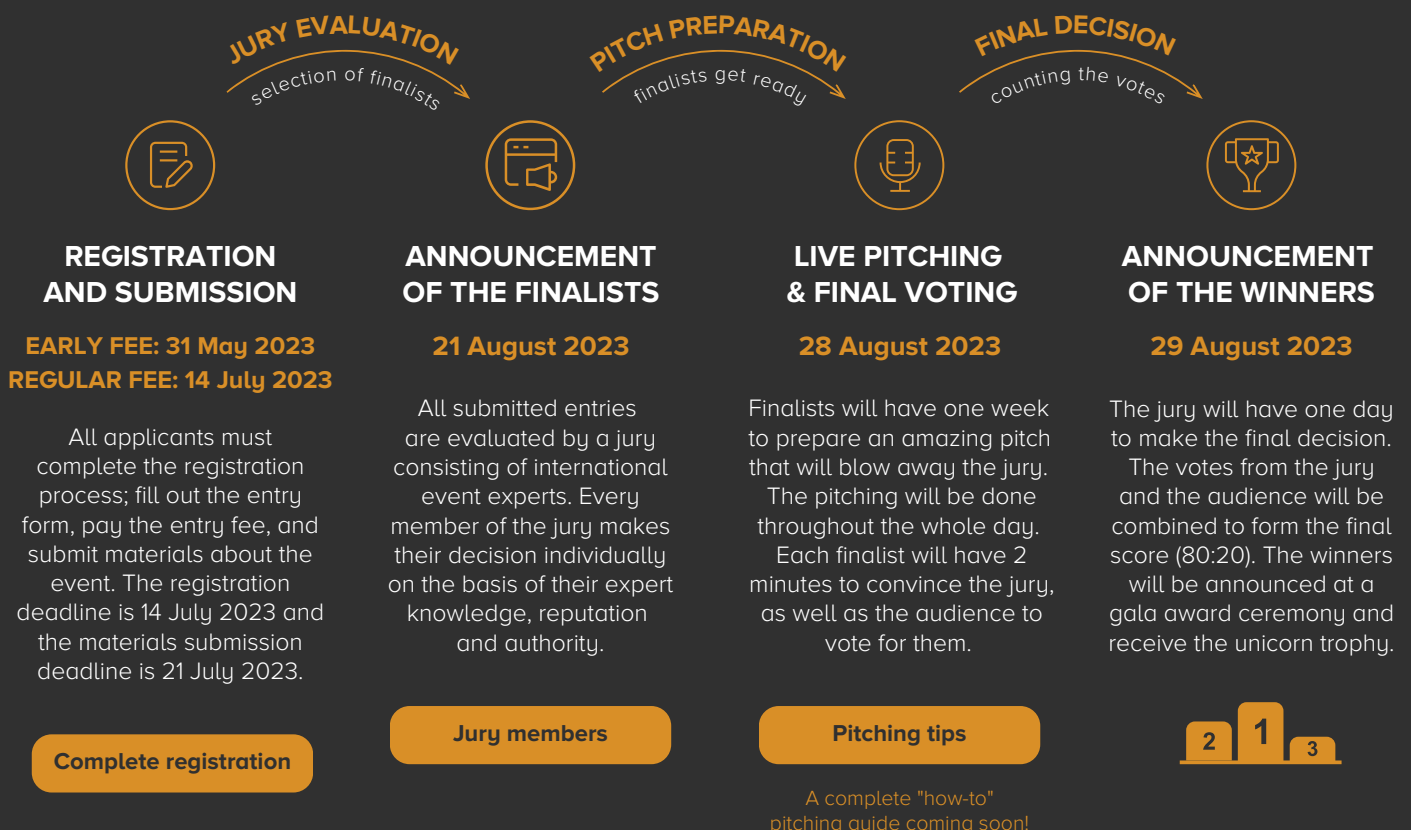

Conventa Best Event Award is an annual competition that awards the best events in the region of New Europe. The best between Helsinki and Istanbul, and Venice and Baku.

Established in 2015, it soon became an integral part of the Conventa Crossover festival, with live pitching and the grand finale taking place as part of the event from the outset. The founder of the project, Gorazd Čad, saw a big gap in the market. A gap that global awards of similar type weren't addressing. Back then, there was no platform dedicated to showcasing what creative, brave and ingenious event organisers from countries of the region are capable of. Conventa Best Event Award was created based on that premise. To show the world that we can compete on the highest level. This was confirmed by the winners of the award, who went on to compete and receive recognition in other international competitions.

Now, more than ever, events have the power to change the world. An excellent event can awaken dreams and desires that attendees didn't even know they had. Together with an appealing story, inventively used digital networking tools and interaction, events are the breeding grounds of strong communities that bring added value to the world. As we don't want your big ideas to go unnoticed, we invite you to register your best projects for the Conventa Best Event Award 2023.

2. THE FORMAT AND TIMELINE

The evaluation of registered events follows a unique 80:20 model. The winner is selected based on a weighted average calculated after the live pitching and voting has ended. 80% of the votes come from the jury and 20% from the audience, who vote for their favorite project based on live presentations from the finalists. This method has proven to be the most effective, objective, as well as engaging way to select the best of the best.

3. THE RULES

1. Projects that were carried out from **1 January 2022** until **14 July 2023** are eligible to register for the award.
2. Projects that competed for the award last year are not eligible to enter.
3. Each project can be entered into one or more categories. See entry fees for applying in additional categories in point 3.4.
4. Your participation in the competition can not be cancelled or removed. When your submission is finalised, you agree that a representative from your company will attend the live pitching in person, and in the case of winning, attend the award ceremony. An entry is considered finalised, once the registration form is completed, the entry fee has been paid and all materials have been submitted.

3.1 ENTRY PROCEDURE

All applicants should complete an [online registration form](#). Only fully completed forms will be considered. The deadline for completing registration is **31 May 2023** (discounted early fee) or **14 July 2023** (regular fee).

After the registration form is submitted, the organisers will send you a [materials submission form](#), where you will be able to enter details about your event, upload photos, videos and additional material used to prepare your presentation for the jury and public. You will have until **21 July 2023** to enter details about your event. All texts and descriptions should be submitted in English. Materials in the following specifications are obligatory:

2. Video - main project presentation

max. 2-minutes, max. 200MB in mp4 format and as a Youtube link

It is recommended to have a voice-over playing over the video in order to make the content clearer to the jury. Please add subtitles if the speaking voice is not in English or the voice is not clear. Using copyrighted music is not allowed. We recommend structuring the video as follows:

1. THE OBJECTIVE - start with the why
2. THE CHALLENGE - what did you try to do?
3. THE SOLUTION - how did you do it?
4. THE RESULTS - what was the impact on the world?

4. Photos

3.2 THE JURY EVALUATION

Once you submit all of your materials, the submission will be given to our expert jury for evaluation. The jury consists of 15 members who participate and have equal votes in evaluating the submitted entries. Every member of the jury makes their decision individually on the basis of their expert knowledge, reputation and authority. Each member also has the right to raise objections and questions, as well as an obligation to explain the scores given when evaluating entries to receive the award.

The finalists are selected based on the final score achieved in the evaluation. The threshold for making it into the finals is 6,01. The finalists will be announced on 21 August 2023. The jury reserves the right to reject applications in the evaluation phase if the events have malicious intent, cause harm to society or promote unethical behaviour.

The final score is based on 9 evaluation criteria:

- 1. Creativity**
Evaluating creativity in the approach based on the target group and originality/uniqueness of the concept of the event itself, which opens up new aspects in the organisation of events.
- 2. Relevance**
How relevant the event is for the target group and what is the achievement of the target group and its involvement in the event.
- 3. Innovation**
Measuring innovativeness in organisation of events, content, programme design and technical support. Innovations that are new in the region are taken into account.
- 4. Execution**
The execution of the event from the perspectives of project management, management of personnel, partner relations with the client and logistical execution.
- 5. Results of the event**
Evaluation of the results in relation to the established targets of the project and the funds invested, and evaluation of the added value (Return on Investment - ROI).
- 6. Event communication**
What the event contributed to the long-term communication and marketing strategy of the client and the event organisers.
- 7. Sustainable policies**
Communication and positioning the values and identity of sustainable management and actual implementation of measures at the event.
- 8. Legacy**
Evaluation of the long-term effects and benefits of all parts of the project and measuring its wider social influence.
- 9. Overall final impression of the event**
The overall impression: originality, creativity, and added value.

3.3 LIVE PITCHING

Each finalist will have 2-minutes to present their event to members of the jury and the public audience. To promote creativity and give the finalists freedom to express their ideas, the 2 minutes can be used in one of the three ways listed below:

- You can play a 1-minute video and talk for 1 minute
- You can play a 2-minute video and not talk
- You can talk for 2 minutes (you can also talk over the video while it's playing)

You can dance, sing, draw, or do anything you desire, but it has to be within 2 minutes

After the 2-minute pitch, each member of the jury reserves the right to pose questions to the presenter. The presenter will have an additional 5 minutes to answer.

The live pitching will be taking place on 28 August 2023 from 10:00 to 15:30. The exact time slot will be communicated by the organiser and will be based on the category you will compete in.

The finalists will be announced on 21 August 2023, therefore you will have 7 days to prepare the pitch and send us all the materials you will use for the live presentation. All the pitching materials should be sent to gorazd.cad@toleranca.eu, no later than **27 August 2023**. Finalists who will fail to send the pitching material by the required date, will not be able to use it on the day of the event.
